Now CSCs to facilitate students for University of Delhi Exams

It is advised to use 'Mozilla Firefox' with the latest version for performing transactions on Digital Seva Portal. It is important for you to know that Google has deprecated the use of TLS 1.0 & 1.1 because of which there might be challenges while making payments, top-ups, transactions etc. Therefore, if you are running an older browser, you need to enable the browser's TLS 1.2 protocols and use Mozilla Firefox for better convenience.
